15 YEARS ANNIVERSARY

The Dream

It was a hot summer day in 2002. Jes Jensen & Jakob Bredahl kjær (JJDK) were sitting at a cafe in Aarhus (Denmark). They talked about the possibility of creating a cosmetic bag brand, which should conquer the world by setting a new standard for design & quality. But most importantly it should fulfill the requests, functionality and dreams of the consumers. It should be cosmetic bags designed by the heart.

15 years

During the last 15 years, JJDK has become a globally recognized brand that is both simple and modern as well as exclusive. JJDK cosmetic bags are found in the most well know retail chains in Europe and the first steps working towards introducing the brand to Asia has already begun.

The Nordic Design

The collections are carefully selected, and always live up to the demand for combining exquisite simple design with functionality and good quality. From the first designs to a finished product at a shop includes hundreds of hours of work in trend spotting, designing, sampling and building up a collection. The JJDK collections offer new details and fresh designs every season. The crown logo in the lining of the toiletry bags is a testimony to JJDK's origin, the kingdom of Denmark - the country known for world-class design.

The Future

2017 marks a new course towards undiscovered frontiers. With a strong belief in the sustainability of JJDK's unique design, we aim to expand our lines and move our brand to new and exciting concepts.

Still Going Strong

At JJDK, we have our hearts in the right place, and honesty and credibility are some of our most important values. That is why we are still here 15 years later and that is why we look forward to the next 15.

Thank you for your continued support.

Best regards

Jakob & Jes
